Professional Development Center > Community Engagement

Community Engagement

As part of the community engagement activity and social responsibility; the Professional Development Center furthermore offers its services to the local community towards developing the community outside the University.

According to the Professional Development Center (PDC); Community Engagement in higher education is defined as sustained networks, collaborations, communication media, and activities between Higher Education Institutions and communities at the local, national, regional, and international levels.

Establishing contacts, collaborative initiatives, business ventures, co-sponsored meetings, conferences, sporting events, research projects, and other activities are all examples of community engagement initiatives.
